

CAN I GET YOU A TIE?

The savvy tailor does not shy away from selling ties. Certainly, the big money is in selling that custom-made suit. Whether or not the patron purchases a suit, however, the savvy tailor will sell them a tie – earning a tidy little profit on a simple, but colorful, piece of silk.

Figuratively speaking, you are a tailor and all the franchise opportunities you have are like suits, almost custom fitted to each individual client. While the price of these suits range, they are the source of your big money.

Following this metaphor, the **AmSpirit Business Connections** franchise opportunity is like the tie. It may not represent big money to you, but it can be a tidy little profit, if you let it.

When you stumble across the person who could not possibly afford a suit, consider **AmSpirit Business Connections**. This opportunity has a low initial required investment – a little more than \$10,000.

When you happen upon the person who does not have the time to commit to the care of a custom-made suit, consider **AmSpirit Business Connections**. This opportunity is designed to be operated part-time.

The **AmSpirit Business Connections** franchise opportunity may not be big money, but it does represent a tidy little profit. So, be like the savvy tailor and don't shy away from selling a tie or two.
